

# POP UP PARTY!

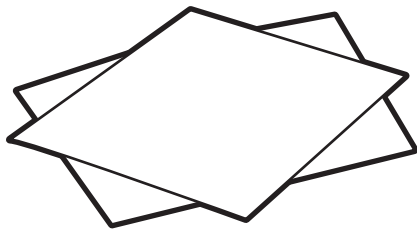

Learn how to make a pop-up card with Branch from Trolls. Let's get started!

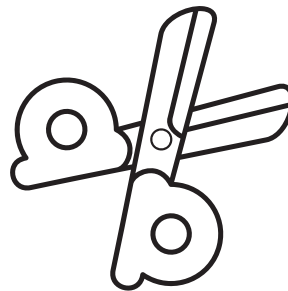

## What you'll need

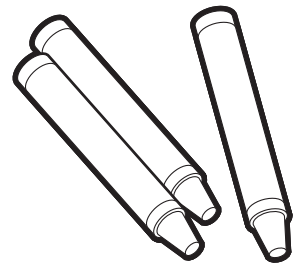

Glue stick

Paper

Scissors

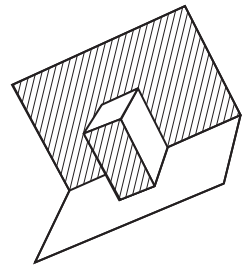

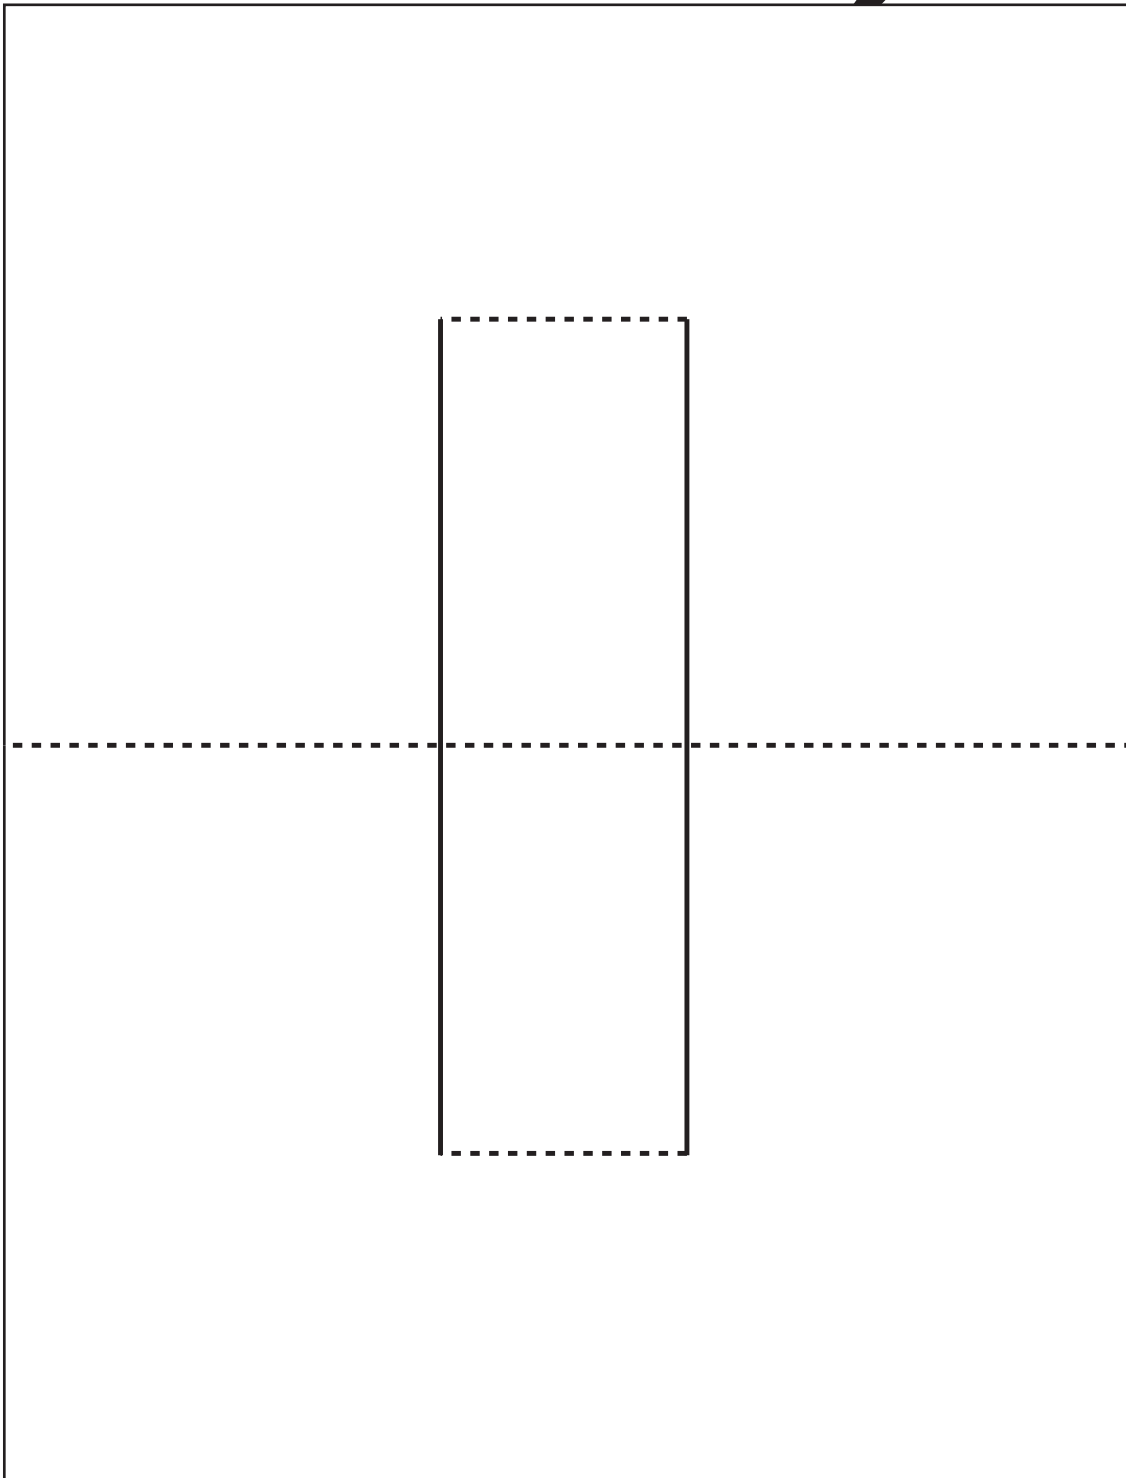

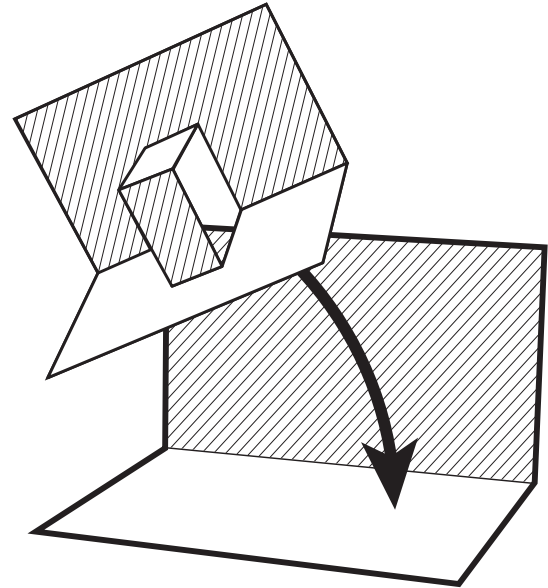

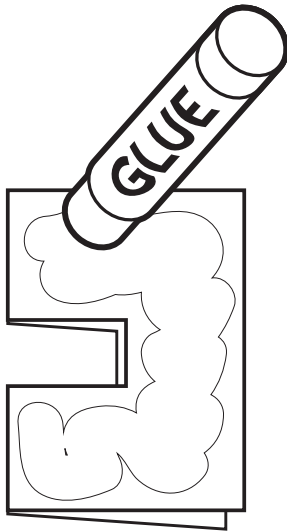

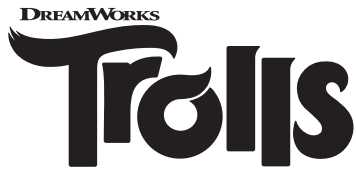

Coloring tools

# Instructions

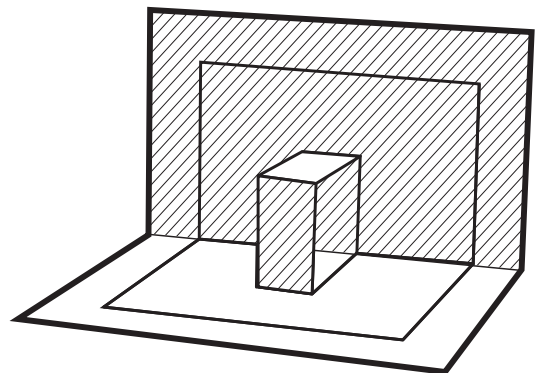

- 1 With the help of a grown-up, cut the rectangle out, then fold it in half and snip along the solid lines. This is how Branch will pop up!

- 2 Fold a piece of construction paper or cardstock in half widthwise to make a card. Then, take your cutout and glue the back of one side, making sure to leave the pop-up free from glue.

- 3 Place your cutout glue side down in the middle of your folded card.

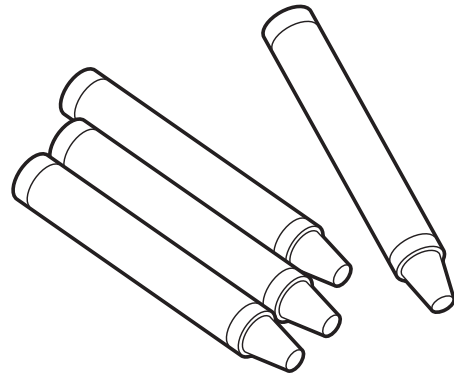

- 4 Then, glue the other side of your cutout, making sure to leave the popup free from glue. Close your card and press down to make it stick.

- 5 Open your card, prop up the cutout, and let the glue dry. Now, it's time to color Branch!

- 6 Color Branch with your choice of crayons, colored pencils, or markers. Then with the help of a grown-up, cut him out!

- 7 Glue Branch upright on one side of the card. Decorate the inside of the card with your favorite colors and designs. Write a message and give it to a friend or family member!
